made seamless.

BALANCE OF SYSTEM SOLUTIONS (BOSS)

INVERTERS

Optimize your entire PV system with Suniva's BOSS. System integrators can experience best-in-class inverter solutions with SMA.

Suniva, an American manufacturer of high-efficiency, high-quality crystalline silicon solar cells and modules, leads the global market with its innovative and low-cost manufacturing techniques. As an extension of our high-quality PV products, Suniva is bringing together industry-leading balance of system partners to make your balance of system solutions seamless.

SUNNY BOY · SUNNY TOWER · SUNNY CENTRAL · SUNNY ISLAND

SMA SOLAR TECHNOLOGY:

SMA Solar Technology is the world's largest and longest established solar inverter manufacturer. Over twenty-three gigawatts of SMA inverters are installed worldwide and our customers are supported by twenty-one divisions on six continents. SMA is Buy American compliant and eligible for EXIM financing.

SUNNY BOY

- Single-phase string inverter
- 0.7kW - 10kW AC power
- 208, 240, 277 VAC with DC switch
- UL/CEC listed; NEMA 3R
- Best for residential & small commercial
- Products available for worldwide use

SUNNY TOWER

- Modular, three-phase string inverter
- 36 kW to 48 kW AC power
- Best for: Commercial
- UL/CEC listed; NEMA 3R

SUNNY CENTRAL

- 250 kW to 800 kW AC power
- Best for: Utility; Large PV power stations
- UL/CEC listed; NEMA 3R

SUNNY ISLAND

- Available in 5kW increments
- Single and three-phase inverter
- Best for: Off grid/battery backup systems
